About This Game

Originally released as a bonus item for Frontwing's game "Hatsuru Koto Naki Mirai Yori" (From The Future Undying), this is The Labyrinth of Grisaia's second, and the trilogy's final, side story.

Much like the previous side story, The Afterglow of Grisaia, Melody is a visual novel with an engrossing story at its core.

This episode takes place just after Kusakabe Asako officially names Kazami Yuuji her successor as number 9029, and details his globe-hopping exploits thereafter.

Yet more secret passages of The Labyrinth of Grisaia are revealed within...

It is recommended that you play this game only after having played The Labyrinth of Grisaia.

This was another great VN that showed us some of Kazami's life that did not appear in the Grisaia years. Arms talks and JB's response from his dossier were very funny. But for those who did not realize it, Kazami, when he was a forced child, killed the guy's dad, wearing a wig and showing his sister, and shortly Asako got a mission that asked him to destroy that clan. After the destruction of the clan, he received a mission that led him to Kazami to meet. It was nice to find out that the two had an accident in the past and even liked to see Marion.
